

IEEE CLOUDCOM 2016

Register Now!

CloudCom is the premier conference on Cloud Computing worldwide, attracting researchers, developers, users, students and practitioners from the fields of **big data**, **cloud systems architecture**, **services research**, **virtualization**, **security** and **privacy**, **high performance computing**, always with an emphasis on *how to build cloud computing platforms with real impact*.

Register Now for this major Cloud conference, organized in Luxembourg:
<http://2016.cloudcom.org>

Why register?

- Participate to one of the **major Cloud research conferences**, giving access to 300 technical experts and practitioners of cloud computing technology and science from more than 40 countries, worldwide
- Access to a Technical Program comprising 4 full days with tutorials, demos and exhibitions and covering key IT topics:

Architecture and Virtualization
Cloud Services and Applications
IoT and Mobile on Cloud
Big Data
High Performance Computing in/with the Cloud
Security and Privacy
Distributed Cloud / Cloud Brokering / Edge Computing

- Follow the **presentation of 50 high-quality research papers** carefully selected (acceptance rate: ~25%) by a Technical Program Committee composed by 280 worldwide experts from academia and the industry, among the most renowned in the field.
- Train yourself through **practical session tutorials**, covering disruptive and emerging subjects such as *Reproducible Research* using Cloud Era tools, or the *effective deployment of Cloud environments with OpenStack*.
- Access to several **technical panels** chaired by worldwide recognized cloud experts on current challenges such as:
 - *Mutual influence of China-EU advances on Big Data and Green Informatics*
 - *The role of HPC & Cloud Computing in Financial Services and Technologies*

We are pleased to proposed the following starting registration prices:

Looking forward to seeing you at CloudCom 2016!

| | |
|-----------------------------------|-------|
| Workshops/Tutorials (Monday only) | 180 € |
| Full Technical Program | 530 € |
| [PhD.] Students | 310 € |

Sebastien Varrette, Pascal Bouvry and Albert Y. Zomaya
IEEE CloudCom 2016 General Chairs
